

Habitat Restoration Specialists, LLC

Seeking a highly motivated and energetic Habitat Restoration Technician to join our team

HRS is seeking individual(s) to become a part of our team and restoration family. We would like to take your energy and skills and put them to work in varied locations throughout the tri-county area stretching from Snohomish to Pierce County.

The crew member(s) will have the following desired qualifications with reasonable accommodations made in order to fulfill the requirements.

Desired Abilities

- Ability to identify, continually learn to ID plants; and understand the native ecology of the Pacific northwest and specifically Western Washington.
- Ability to learn non-native plants and how to assess the difference between native or non-native.
- Ability to focus and work in all weather conditions.
- Ability to carry 30 pounds over uneven ground for the workday.
- Experience operating small engine tools (i.e., brush cutters and hedge trimmers)
- Current WSDA Pesticide Applicators license holder or ability to recertify in a timely manner if holding a license.
- At least one season of restoration experience is desired.
- Current drivers license holder with the ability to be insured on company truck and a clean driving record with access to reliable transportation.
- Ability to work alone and/or in a team setting and stay highly driven to complete the days task.

Work Details

HRS is based in SeaTac and job days will start and stop at the shop.

Workday will be 0700 -5:00pm Monday-Thursday. (4-10's). Hours may vary dependent upon weather conditions.

Two 15-minute paid breaks will be given as well as a 30-minute unpaid lunch.

Compensation will start at \$20.00. First review will take place 90 days after hiring.

Please send a resume and a paragraph of why you feel you would be a great team addition to our restoration family.
